

# The **patient information** we collect is changing

**From 1 December 2020 all patients will be asked to fill out an equalities monitoring form the first time they visit Manchester Clinical Research facility**

## **Why collect equalities data?**

As part of our NIHR key aims we are working to make research more inclusive. The information we collect will help us find the communities we don't yet reach and help us make sure everyone in Greater Manchester knows about opportunities to get involved in health research.

## **Who will this affect?**

If you're a ward clerk, research nurse or health care assistant then this may affect you. Speak to your line manager to find out more.

## **Interested in inclusive research?**

A member of the Vocal team will be available to answer any questions you might have. Speak to your line manager to find out more or email [vocal@mft.nhs.uk](mailto:vocal@mft.nhs.uk)
